*Mrs. Kimball passed away in December, 1949 and her place was taken by Mrs. Waldo Bigelow for the remainder of the school year.

Number of pupils registered during the year:

Contoocook Graded		Hopkinton Village	
Grade 6	18	Grade 6	11
Grade 5	16	Grade 5	10
Grade 4	14	Grade 4	13
Grade 3	18	Grade 3	7
Grade 2	22	Grade 2	13
Grade 1	19	Grade 1	10

The Parent-Teacher Association continues to be an active, well organized group which is interested and actively working for the best interests of the children of Hopkinton. Their large project for the year is to add to the Marian Kimball Fund. The amount of this fund at the present time is \$700.00. This is a very

worthwhile project as Hopkinton High School does not have a single scholarship award. It is hoped that the Marian Kimball Fund will become large enough to make an annual award.

The Building Committee has been very active during the past year, and has put a tremendous amount of time and effort into their study. They have had many problems to meet which have been very difficult. However, they are going ahead and it is possible that they may have a special school meeting to decide whether the town of Hopkinton is going to build a new school building to meet their educational needs. It may be that the decision will have been made by the voters of the community before this report is in your hands.

Three new teachers have been added to the teaching staff. Mrs. Lois H. Day is the new second grade teacher in the Contoocook Elementary School, Miss Betty Daniels is the new teacher-coach in the High School. Mr. Russell Antell is the Science-Math. teacher and coach replacing Mr. Richard Mills who resigned because of ill health just after school started in the fall.

No one knows just how much the world situation is going to affect our school program. However, we do know that young men teachers are going to become scarce again. Most boys that graduate in June will be going into the armed services as will our high school graduates. It will be difficult to predict what the young women will do. Towns that have good teachers will do well to make every effort to keep them.

This has been a very busy year but I have enjoyed it very much. I deeply appreciate the fine cooperation I have received from the school board, teachers and people of Hopkinton.

WILLIAM C. STERLING,
Superintendent of Schools

Two new teachers joined the staff at the High School this year. Miss Betty Daniels, a graduate of Bates College, is teaching Social Studies, English, Foreign Languages, and coaching the girls' basketball team. Mr. Russell Antell, a graduate of Colby College is teaching the Sciences, Math. and coaching boys' athletics.

During the first semester of 1950-51 an extension course in "Mental Hygiene for Teachers" was conducted at Hopkinton High School. Several of the High School teachers have been attending this class.

The School Lunch Program is in operation from November until the latter part of April with the same personnel as in the previous years. An average of 245 meals are served daily which includes the three schools of Hopkinton. From the number of participants of the program I believe that speaks for its success.

Each year this report lists the number of graduates from Hopkinton High School and their future plans. During the past five years (1946-1950) sixty-one students have graduated from Hopkinton High School and the distribution is as follows:

Of the graduates of your local schools better than one-third are furthering their education, this in itself is a good percentage, local industry has absorbed some, while others have chosen to leave the community in pursuit of employment. It must be remembered that the year 1945 was an adjustment year following World War II while 1950-51 seems to place us in another critical period of world affairs. These factors will greatly affect the plans of our youth, which in turn will affect the distribution of any group or class.

In closing, I wish to take this opportunity to thank the School Board, Superintendent, faculty, parents, students, and all others for the cooperation received during the past year.

Respectfully submitted,

ELSON S. HERRICK,
Principal

REPORT OF THE BUILDING COMMITTEE

During the past year the Building Committee has continued to study all possibilities for the much needed new school in Hopkinton.

In May of 1950, the committee members visited recently constructed schools in order to see the type of work that is being done in the State. At Goffstown, the new addition to the high school was studied. Besides a gymnasium, this addition has rooms for grades one through three. In Walpole, the group went through the new twelve grade elementary and secondary school. The Hinsdale school that was visited, is a new six grade elementary school. The committee also visited the eight grade Harrisville school. Careful notes were taken on all visits so that the material might be used as reference should the time ever come when Hopkinton would build a school.

The committee visited various pieces of property in the vicinity of Contoocook which might be available for a new school site.

Several times the committee met with the Curriculum Committee so that they might learn what curriculum requirements should be met by a new school.

When it became obvious that no further work could be done without the assistance of an architect, the committee interviewed five different architectural firms. Each representative architect was given ample time to tell the group what his firm could do for the school district; to be questioned and to question the committee. After careful deliberation, it was decided that the Irving W. Hersey Associates could be of the best assistance to the committee in the preliminary work.

Since July, Mr. Hersey has worked closely with the committee in planning a possible new school.

Members of the committee and Mr. Hersey have met with various organizations in the town to attempt to explain adequately the need for a new school and the type of school which their studies have led them to feel would meet the requirements of the town.

The committee feels that a school which would have room for grades five through twelve would relieve considerable of the congestion in the present school set-up. It would also eliminate the need for several major repairs to the present high school.

In the months of January and February 1951, the committee supported the bill in the State Legislature to allow the School District of Hopkinton to issue bonds and notes up to \$200,000, so that the townspeople of Hopkinton might legally vote at School District meeting on their wishes as to a new school for the children of the town.
